

The Worklight Partner Program

We are pleased to announce the Worklight Partner Program. We realize the importance of working with partners to help each other grow and succeed. Worklight has established relationships with companies worldwide and continues to invest in its partners. Join us and capitalize on the very attractive and high-growth mobile market.

Worklight is the ideal mobile platform company to partner with due to the openness and flexibility of our platform technology and because we do not compete with our partners by building packaged applications or custom applications for our customers.

Program Overview

The Worklight Partner Program offers opportunities for the following types of companies:

- > **Technology Partners** – Mobile, infrastructure, hardware and other technology companies and carriers with offerings that complement Worklight.
- > **Channel Partners** – Distributors and Resellers that resell the Worklight platform and tools and optimally provide support and training as appropriate.
- > **Services Partners** – Mobile and web development firms, system integrators and IT outsourcers who design and/or build Worklight-based applications.
- > **ISV and OEM Partners** – Independent software vendors and SaaS (software-as-a-service) companies with apps extended by Worklight's platform and tools.

Benefits and Structure

Worklight partners include leading technology companies, resellers and distributors, service providers, and ISVs and OEMs. Worklight's partners can gain access to significant benefits by qualifying for and joining the program.

Joint Field Engagement	●	●	●	●
Access to Qualified Sales Leads	●	●	●	●
Margin for Reselling Worklight		●	●	●

The Worklight Partner Program

We offer three levels of partnership: Select Partner, Premier Partner and Strategic Partner – based on technology skill assessment, experience with Worklight technology, and business volume and impact.

With increased commitment to the Worklight Partner Program, partners will be eligible for more advanced levels from Select to Strategic with increasing benefits.

Our partners can leverage Worklight's open technology platform, standards-based support, and integrated tools. We place a priority on doing business through our partners whenever possible.

The Worklight Partner Program provides the opportunity to enter a network of successful companies that are interested in working together with Worklight to drive revenue and create new opportunities.
